

Job Opportunities in Research

Pathways to Research and Doctoral Careers (PREDOC) is a consortium of universities and research institutions dedicated to making research careers in quantitative social sciences like Economics and Business open to all.

Whether you're revising your BA thesis or just a freshman trying to figure out where to start, **visit predoc.org to learn more.**

Members: Brookings, Carnegie Mellon, Columbia, Cornell, the Federal Reserve System, Harvard, J-PAL, MIT, NBER, NYU, Northwestern, Princeton, Stanford, UC Berkeley, UCLA, UCSD, UChicago, University of Florida, University of Houston, University of Michigan, University of Pennsylvania, University of Rochester, UT Austin, USC, Yale

PREDOC |||

Paid, Full-Time Research Opportunities in Business and Economics

Pre-docs are paid, full-time research assistants who work directly for faculty and other researchers for two years, before going on to careers in academia or industry.

These job opportunities allow pre-docs to learn what research is all about by working alongside the country's top researchers. You will not only experience the passion for research these researchers inspire, but also gain skills that will serve you well in any future career.

Investigate topics like:

- Energy policy
- Wealth inequality
- Fake news
- Climate change
- Race and discrimination
- Early childhood education
- Algorithmic fairness
- Healthcare

Learn more at predoc.org/opportunities.

"The PREDOC program gives first-generation students like me a more equitable chance to succeed in our goals."

EVA MA, SUMMER 21 ALUMNA
